Immunologist of the Month

Every month we feature a new interview with an Immunologist. These Immunologists are at the cutting-edge of research and education, they have kindly offered to give us their time and insight into their research and studies.

April 2024

Dr Rubina Bunjun obtained her PhD and completed her post-doc at the University of Cape Town (UCT), South Africa. Her current research focuses on understanding immunity to SARS-CoV-2 in Africa, namely, investigating pre-existing immunity to SARS-CoV-2 in adolescents, and immune dysfunction during “long COVID”. Rubina is also a Junior Research Fellow within the Institute of Infectious Disease and Molecular Medicine (IDM) at UCT. She is also passionate about science communication and is an advocate for improving mental health in academia.

March 2024

Dr Prossy Naluyima is a laboratory scientist with a bachelor's degree in biomedical laboratory technology from Makerere University, a Master of Science degree in Biomedical Science from the University of Ulster, Northern Ireland, UK, and a doctorate in Medical Science, specializing in Immunology from Karolinska Institute of Sweden.

She has 20 years of experience in medical research with the Makerere University Walter Reed Project (MUWRP), Uganda. Dr Naluyima oversees laboratories that support the evaluation of the health of patients, and the safety and immunogenicity of biological products for the prevention or therapy of infectious and non-infectious diseases.
