Latest Interviews

Immunologist of the Month

Every month we feature a new interview with an Immunologist. These Immunologists are at the cutting-edge of research and education, they have kindly offered to give us their time and insight into their research and studies.

February 2024

Talitha Müller is near the end of their PhD in Clinical Science and Immunology under the supervision of Prof Jonny Peter and Prof Edward Sturrock; and she recently finished her 4th year of Medicine at the University of Cape Town (UCT). Talitha is on the MBChB-PhD track under the UCT CSTP (Clinician Scientist Training Program) at UCT. She is studying the effect that COVID-19 disease has on the renin angiotensin system (RAS) and its links to the immune response to COVID-19, across the spectrum of disease severity from asymptomatic infection to critical disease.
