

Webinars

Please choose a Topic below

- [SAIS/Immunopaedia Webinars 2022](#)
- [IUIS – Immunopaedia – Frontiers Webinars 2022](#)
 - [Metabolic control of T cell differentiation during immune responses to cancer](#)
 - [Microbiome control of host immunity](#)
 - [Shaping of anti-tumor immunity in the tumor microenvironment](#)
 - [The unusual COVID-19 pandemic: the African story](#)
 - [Immune responses to SARS-CoV-2](#)
 - [Adaptive Immunity and Immune Memory to SARS-CoV-2 after COVID-19](#)
- [IUIS – Immunopaedia – Frontiers Webinars](#)
 - [HIV prevention- antibodies and vaccine development \(part 2\)](#)
 - [HIV prevention- antibodies and vaccine development \(part 1\)](#)
 - [Immunopathology of COVID 19 lessons from pregnancy and from ageing](#)
 - [Clinical representation of hyperinflammation](#)
 - [In-depth characterisation of immune cells in Ebola virus](#)
 - [Getting to the “bottom” of arthritis](#)
 - [Immunoregulation and the tumor microenvironment](#)
 - [Harnessing innate immunity from cancer therapy to COVID-19](#)
 - [Flynn Webinar: Immune features associated natural infection](#)
 - [Flynn Webinar: What immune cells play a role in protection against M.tb re-infection?](#)
 - [JoAnne Flynn: BCG IV vaccination induces sterilising M.tb immunity](#)

- [IUIS-Immunopaedia-Frontiers Webinar on Immunology taught by P. falciparum](#)
- [SAIS/Immunopaedia Webinars](#)
 - [COVID-19 Cytokine Storm & Paediatric COVID-19](#)
 - [Immunothrombosis & COVID-19](#)
 - [Severe vs mild COVID-19 immunity and Nicotinamide pathway](#)
 - [BCG & COVID-19](#)
 - [COVID-19 Vaccines](#)
 - [Antibody responses and serology testing](#)
