Webinars

Please choose a Topic below

- **SAIS/Immunopaedia Webinars 2022**
- **IUIS – Immunopaedia – Frontiers Webinars 2022**
  - Metabolic control of T cell differentiation during immune responses to cancer
  - Microbiome control of host immunity
  - Shaping of anti-tumor immunity in the tumor microenvironment
  - The unusual COVID-19 pandemic: the African story
  - Immune responses to SARS-CoV-2
  - Adaptive Immunity and Immune Memory to SARS-CoV-2 after COVID-19
- **IUIS – Immunopaedia – Frontiers Webinars**
  - HIV prevention- antibodies and vaccine development (part 2)
  - HIV prevention- antibodies and vaccine development (part 1)
  - Immunopathology of COVID 19 lessons from pregnancy and from ageing
  - Clinical representation of hyperinflammation
  - In-depth characterisation of immune cells in Ebola virus
  - Getting to the “bottom” of arthritis
  - Immunoregulation and the tumor microenvironment
  - Harnessing innate immunity from cancer therapy to COVID-19
  - Flynn Webinar: Immune features associated natural infection
  - Flynn Webinar: What immune cells play a role in protection against M.tb re-infection?
  - JoAnne Flynn: BCG IV vaccination induces sterilising M.tb immunity
- IUIS-Immunopaedia-Frontiers Webinar on Immunology taught by P. falciparum
- SAIS/Immunopaedia Webinars
  - COVID-19 Cytokine Storm & Paediatric COVID-19
  - Immunothrombosis & COVID-19
  - Severe vs mild COVID-19 immunity and Nicotinamide pathway
  - BCG & COVID-19
  - COVID-19 Vaccines
  - Antibody responses and serology testing
